

TRUE GAIN ANTENNAS

All The Signal...[®]

True Gain's patented Mighty Mini 900 MHz antenna delivers high performance from a minimal footprint in any weather. Vertical or horizontal, the antenna installs quickly in virtually any position with included Maxi-Position Mount™.

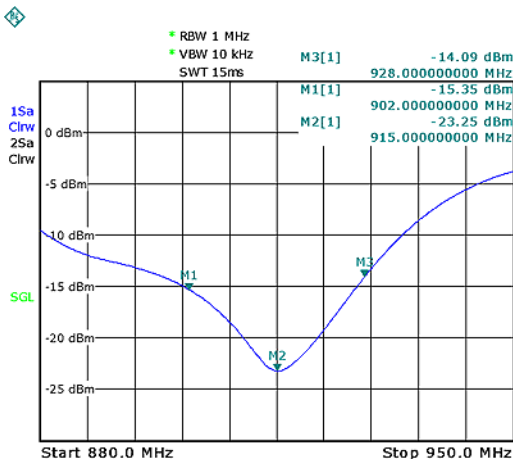

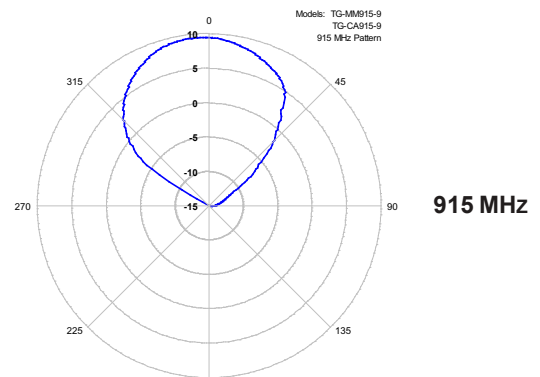

Applications:

- Canopy & Ubiquiti Radios
- Broadband networks and service
- Point to multipoint

TG-MM915-10 Features –

- **Lifetime Warranty:** Materials and Workmanship
- **Maxi-Position Mount™**
- **Length:** 8.8" (22.4 cm)
- **Width:** 7.5" (19.1 cm)
- **Height:** 3.8" (9.6 cm)
- **Weight:** 13.5 oz. (0.38 kg)
- **Rugged Environmental Resistant**
- **Environment:**
 - Operational: 100 mph (161 Km/hr.)
 - Survival: 100 mph (161 Km/hr.)
- **Connection:** 18" LMR 200 w/ N, RP-SMA, or SMA

VSWR
M1 = 1.41
M2 = 1.15
M3 = 1.49

Electrical Specifications:

Model	Frequency (MHz)	Polarization	Gain (dBi) @ 915 MHz	Beamwidth (°) -3 dB @ 915 MHz	F/B (dB) @ 915 MHz	VSWR
TG-MM915-10	900 - 928	Hz. / Vert.	10.0	59.8	24.8	1.49:1
